

Title	Webpage	Brief Description
<b>Ambient Air Quality Standards</b>		
National Ambient Air Quality Standards (NAAQS)	<a href="https://www.epa.gov/naaqs">https://www.epa.gov/naaqs</a>	EPA establishes the National Ambient Air Quality Standards (NAAQS) for wide-spread pollutants considered harmful to public health and the environment. Current and prior review of the NAAQS and information related to the implementation of control programs are available.
Table of the California and National Ambient Air Quality Standards	<a href="http://www.arb.ca.gov/research/aaqs/aaqs2.pdf">http://www.arb.ca.gov/research/aaqs/aaqs2.pdf</a>	This pdf document developed by the Air Resources Board is a table identifying the California and National Ambient Air Quality Standards for each air pollutant by listing the standard concentrations, averaging times, and methodologies.
EPA Air Emission Sources	<a href="https://www.epa.gov/air-emissions-inventories/air-emissions-sources">https://www.epa.gov/air-emissions-inventories/air-emissions-sources</a>	Basic information from EPA about NAAQS for each of the six criteria pollutants for protecting public health and protecting the environment.
EPA Greenbook of Nonattainment Areas for Criteria Pollutants	<a href="https://www.epa.gov/green-book">https://www.epa.gov/green-book</a>	Nonattainment area classifications and status for each criteria pollutant.

Title	Webpage	Brief Description
EPA Air Quality Trends	<a href="https://www.epa.gov/air-trends">https://www.epa.gov/air-trends</a>	EPA tracks the levels of ambient air pollutants and how much is emitted from various pollution sources. Numbers are evaluated year after year to see how the pollutants have changed over time. EPA posts the results of their analyses to this web site.
Air Quality Index (AQI)	<a href="http://www.airnow.gov/index.cfm?action=aqibasics.aqi">http://www.airnow.gov/index.cfm?action=aqibasics.aqi</a>	From AirNow, describes AQI as an index for reporting daily air quality. AQI is sort of like a yardstick that runs from 0 to 500. The higher the AQI value, the greater the level of air pollution and health concerns.
Air Quality Maps from EPA Region 9	<a href="http://www.epa.gov/region9/air/maps/index.html">http://www.epa.gov/region9/air/maps/index.html</a>	Each map illustrates the level of air quality in specific areas, the borders of local air permitting agencies, and the location of specially protected federal lands within Region 9 of EPA (Arizona, California, Hawaii, Nevada, and tribal lands in the Pacific Southwest).
Air Quality Maps from the ARB	<a href="http://www.arb.ca.gov/desig/adm/adm.htm">http://www.arb.ca.gov/desig/adm/adm.htm</a>	This web site provides area designation maps of California for all criteria pollutants that are designated for the State and National Ambient Air Quality Standards.

Title	Webpage	Brief Description
<b>State Implementation Plans</b>		
EPA Region 9 State Implementation Plans	<a href="https://www3.epa.gov/region9/air/actions/index.html">https://www3.epa.gov/region9/air/actions/index.html</a>	Contains EPA's action logs for federally enforceable SIPs in EPA Region 9. Listed are the state and local air pollution regulations that EPA has incorporated into the applicable SIP under section 110 of the Clean Air Act.
ARB State Implementation Plans	<a href="http://www.arb.ca.gov/planning/sip/sip.htm">http://www.arb.ca.gov/planning/sip/sip.htm</a>	Provides information on the SIP activities conducted through the Air Resources Board. Provides the attainment plans for and corresponding documents from nonattainment areas in California.
California Department of Pesticide Regulation State Implementation Plans	<a href="http://www.cdpr.ca.gov/docs/emon/vocs/vocproj/voc_state_imp_plan.htm">http://www.cdpr.ca.gov/docs/emon/vocs/vocproj/voc_state_imp_plan.htm</a>	DPR provides information on their SIP activities associated with VOC emission reductions from pesticide use in California nonattainment areas.
